The Mayor of New York "ain't got nothing to say" about his stock in the ice trust, but he knows it is a good thing and freezes to it.

Since that Missouri farmer lost a $500 stone from a ring on his finger, while feeding his pullets, the other Missouri farmers do not wear $500 diamond rings when they feed their chickens.

Postoffice thief Neely, formerly of Indiana, recently of Cuba, wasn't totally bad. He only stole half the receipts and left the other half for the Government. Some Republicans with such opportunities would have stolen all.

An eighteen-year old girl recently died in New York from eating at one dash six quarts of strawberries. They were not North Carolina berries. She could have eaten six pecks of these without any danger of being buried.

The Philadelphia *Press*, Postmaster General Smith's paper, speaking of the Cuba postoffice scandal, says "mistakes have doubtless happened. One small group of officers has proved false." But all the precincts haven't been heard from yet.

To the Honorable Mayor and Board of Aldermen:

If there no way to get rid of the most horrible and degraded class of people in our community, located in what is termed "Racket Store Alley" and the vicinity thereof, in the very centre of the city? If so please state the reason why something is not done to correct the evil?

Very respectfully yours,
HANS A. KURE,

The plans for the school building were drawn up according to Capt. Manning's ideas and the house will be convenient and commodious. CHILDREN'S DAY SERVICES.

"Children's Day" exercises at Grace M. E. Church Sunday morning were greatly enjoyed by a large congregation, and the participants, under the very able direction of Mrs. Jno. F. Garrell, executed the programme in an exceedingly pleasing style.

First came a processional march and announcements by Rev. J. N. Cole, the pastor, followed by opening chorus "Onward We Are Marching" by the school, responsive reading and prayer by the pastor, after which the school again sang "Hail the Day." Misses Janie Dudley, Sue Boone, Sarah Galloway, Lizzie Kirkham and Minnie Beery next recited in a pleasing style "Message of Nature," which was followed by a recitation, "Angel of Flowers," by Miss Alice Craft, and other recitations: "Mother Earth," Miss Mabel Bowles; "Sunbeam," Richard Clowe; "Rain," Mabel Craft; "Dew," Olivia Horn. "All is Complete" was sung by the Helpers and Charles Terry recited "Dandelion," which was followed by recitations by "Apple Blossoms," Fay Westbrook, Carrie Thompson and Rosabel Kirkham. The jolly "Johnny Jump Ups" were Dixie Bowles, Ernest Bulluck, James Chasten, Willie Dunham and Walter Burkheimer and their specialty was good. The "Forget Me Nots" entertained with a song and recitation, those composing the number being Ethel Kellum, Marshall Cole, Bessie Craft, Mary Lamb Boykin, Mildred Maunder and Lucy P. Walsh. Miss Louise Van Laer next recited "Water Lily" in a very catchy manner and "Be Pure in Heart" was sung by the school. A song was sung by "Golden Hearted Daisies," Katie Foard, Annie Casey, Lucy Burkheimer, Janie Culbreth, Annie Craig, Bettie Schulken, Ellen Green, Myra Davis, Addie Chadwick, Marie Clawson, and recitations followed by Misses Agnes Chasten, "The Golden Heart of Rose," and Miss Alice Craft, "Angel of Flowers."

A collection was taken by four small boys, and remarks and benediction by the pastor closed the exercises. "The Golden Heart of the Year" was sung as a finale by the school.

The choir for the services was composed of Mrs. Mattie Chasten, pianist; Mr. E. C. Craft, cornetist; Mrs. W. W. Hodges, Misses Minnie Perdew, Olivia Fitts, Nora Scott, Lillie B. McLaurin, Pearl Guppy, Blanche Chadwick, Mary Culbreth, Lucy McIntosh, Stella McIntosh and Mr. W. W. Hodges.

NO CRIMINAL COURT.

Further Inquiry Into Provisions of Act Prohibted Convening of Term Without Proper Notice.

Criminal Court attendants, attorneys and others interested were doomed to disappointment again yesterday morning, for the term "didn't convene" and the date for same is yet at least fifteen days distant.

Judge Stevens, who arrived Saturday night under orders of Governor Russell to open, the term, yesterday morning held a consultation with members of the Wilmington bar relative to the legality of the proposed term, and it was agreed that to convene the session without the required fifteen days notice would render the court improperly constituted and therefore without power in the trial of cases. Accordingly the court was not opened, the jurors were given their tickets, and the crowd that gathered in the Court House at the appointed hour dispersed. Judge Stevens returned to his home in the afternoon.

Chairman McEachern, of the Board of County Commissioners, again realizing the situation, wired Judge Augustus Moore at Edenton to call a special term as soon as possible as provided for in the act. The telegram, however, was not delivered to him at Edenton and later it reached him at his home in Greenville, N. C., where he is yet confined by sickness. No reply was, however, received last night but the proper notice will probably be given to-day and the term held fifteen days hence by Judge Moore, if he has recovered, and if not by Judge Stevens, who will return to the city.

The law on the question has previously been published in the STAR.

THE SHERIFF INTERFERED.

The Boxing Bout at Hilton Last Night Was Called Off by the Authorities of the Law.

The boxing bout at Hilton between the two colored pugilists, "Shade" Cannon and Louis Perkins, did not take place last night and thereby hangs a tale. Elaborate preparations had been made for the exhibition, a number of arc lights had been suspended, the ring had been arranged and everything was in readiness for the fray, when it became noised about the city among the sports that Sheriff MacRae would interfere. Numerous telephone messages and calls at the office by the more anxious confirmed the report, and then followed notifications by the "boxers" to the referees that their services would not be required in view of the interference.

Sheriff MacRae in response to a question by a reporter said that the law is very explicit and as much as he regretted to disappoint the sportive element, his duty was plain and there was no alternative. The law by which the contest was considered illegal is Chapter 28 of the Acts of 1895 entitled "An Act to Prevent Prize Fighting in the State" providing as follows:

"That it shall be unlawful for any two or more persons to engage in a prize fight or sparring match or glove or fist contest for money or other valuable prize at stake."

"That it shall be unlawful for any one to bet or lay a wager on the result of any prize fight, sparring match or glove or fist contest."

"That it shall be unlawful for anyone to advise, aid or abet in any way whatever in promoting any prize fighting, sparring match or glove or fist contest for money or stakes. All persons offending against the foregoing sections shall be equally as guilty as those offending against all."

The penalty attached to a violation of the law is a fine of $500 or imprisonment in the penitentiary from one to five years; one or both at the discretion of the court.

At the appointed hour for the fight last night Sheriff MacRae with several deputies and Chief of Police Parmele went out to Hilton but neither of the contestants appeared up to 10 o'clock. A curious crowd of perhaps 50 white persons gathered but there was no fight.

THE FIREMEN'S TOURNAMENT.

Prospects Are Bright for Big Success. Executive Committee Meeting.

"The prospects for a successful event in the State and Inter-State Firemen's Tournament, to be held in Wilmington in July have on no previous occasion been so bright as now." This is the statement of Capt. James D. McNeill, President of the State Association, who arrived last night from Fayetteville, and every detail of the arrangements thus far bears out the statement.

Capt. McNeill last night met with the executive committee of the tournament in the Mayor's office and there was a good attendance. Mr. M. Rathjen presided in the absence of Mayor Waddell, and members present were Messrs. W. C. VonGlahn (secretary), Mr. H. C. McQueen (treasurer), Col. Walker Taylor, and Messrs. S. H. Fishblate, T. J. Gore, J. C. Morrison and Charles Schnibben.

Capt. McNeill made a verbal report of his travels through North and South Carolina in the interest of the Tournament and the tidings were quite encouraging. Wilmington, he says, will be called upon to accommodate 1,200 firemen, to say nothing of the other visitors.

An important action by the committee was the issuance of an order that no one is authorized to contract any debts for the tournament except the executive committee. It was also expressed as the sense of the meeting that no bills will be paid out of the funds except signed by the chairman of the executive committee and countersigned by the secretary.

"A TRANSPARENT SHAM."

The farcical anti-trust constitutional amendment which the Republicans in the House of Representatives proposed shortly before Congress adjourned didn't fool any one, and they didn't expect it to be adopted. They knew it would be defeated, and that is why they offered it, for it would give them a chance to go before their constituents and declare that their efforts to put through anti-trust legislation were foiled by the Democratic minority. But the Democrats stole their thunder when they, with alacrity, supported the bill afterwards offered widening the scope of the Sherman anti-trust law to make it more effective. But this was a sham, too, like the constitutional amendment dodge, for it was hung up in the Senate, and went over as so much rubbish.

The Washington *Post* is a non-partisan paper, and believes in a protective tariff, but it saw through this constitutional amendment sham, and the hypocrisy of the Representatives who were playing that fake upon the people, and thus refers to it:

"The President, in his annual message to Congress on the 5th of December, 1899, referred to one of the questions that had for two years been 'justly provoking public discussion' in these words:

" 'Combinations of capital organized into trusts to control the conditions of trade among our citizens, to stifle competition, limit production, and determine the prices of products used and consumed by the people are justly provoking public discussion, and should early claim the attention of the Congress. * * * It is univally conceded that combinations which engross or control the market of any particular kind of merchandise, or commodity necessary to the general community, by suppressing natural and ordinary competition, whereby prices are unduly enhanced to the general consumer, are obnoxious not only to the common law, but also to the public welfare. There must be a remedy for the evils involved in such organizations.'

"That message was sent to a Congress in complete political accord with the President. It was sent six months ago. What response has been made to it? What has been done or attempted to check all or any of those 'combinations of capital organized into trusts to control the conditions of trade among our citizens, to stifle competition, limit production, and determine the prices of products used and consumed by the people?'

"Nothing has been done, nothing has been seriously attempted. The amendment farce failed in the House, where it was expected to fail. Had it gone to the Senate, it would have died there. It was never anything but a transparent sham. The anti-trust bill is laid up in the Senate according to the pre-arranged programme, and no one expects it ever to go through that body without such reconstruction as will utilize little, if any, of the original material.

"And that is the record as to so-called anti-trust legislation by the Fifty-sixth Congress up to date. That is the sum total of the response to the President's message sent to Congress six months ago. Trusts that are robbing the people under the shelter of tariff schedules not required for the protection of labor or for revenue; trusts that have been overcapitalized to the extent of hundreds of millions; trusts that are exacting exorbitant prices in order to pay dividends on fictitious capital; trusts whose pictures are drawn by the President in the words quoted above still have license to plunder and are protected in that business.

Will the blotches in the Democratic record on the trust question, will the trust iniquities of Tammany or the shortcomings of Democratic politicians in the past excuse this premeditated failure? Time will tell how the people regard it, but we do not believe they will contemplate the lame and impotent conclusion of the trust drama in the Fifty-sixth Congress with serene satisfaction.

When the President sent in that message he hoped that Congress would do something to placate the people who were demanding relief from the extortions of the trusts, and consequently he called the attention of Congress to the question in this very mild, milk and water sort of a way. It was quite apparent when he thus delivered himself that he was thinking more about politics than about the people who were suffering from the trust exactions, and the presumption was that Congress would take a political view of it, too, and do something on the line of his suggestion. But Mark Hanna stood around and kept his eyes open, and determined that his friends, the trusts, shouldn't suffer, if there was any disposition shown to jump on them.

In that same message, speaking of Porto Rico, Mr. McKinley told Congress that it was our "plain duty" to give Porto Rico free trade with this country, and when there was a disposition shown to do that "plain duty" then the trusts hustled, put the collar on Congress and on the President, too. The result was tariff duties on products of Porto Rico and the President forgot all about his "plain duty" talk and became practically one of the active lobbyists in the interest of the trusts, to defeat his own recommendation. He sent his spokesman, Representative Grosvenor, into the House to vote for the tariff bill, "to prevent the great calamity of the House passing into the control of the Democratic minority." When he found obstinate men who took him at his word when he told them about their "plain duty" he sent for them and pleaded with them to vote against his recommendation.

Mark Hanna had a deal on with the trusts, which threatened to pull their purse strings and refuse to chip in a red to the Republican campaign fund of the Republicans in Congress did their "plain duty" and that settled the business with Hanna, McKinley and the Republican majority, every one of whom, save six, voted to turn the "plain duty" declaration down, and obey the trusts at the expense of our plighted faith and national honor. Could a President or a Congress which proved as servile and mercenary as that mean anything seriously when talking about measures to curb trusts? As might have been expected after the Porto Rico surrender, as shameful as it was, nothing was done to to curb the trusts, and no one regarded this anti-trust constitutional amendment as anything but a "transparent sham," as the *Post* appropriately characterizes it.

WORKING LIKE BEAVERS.

It goes without saying that the Republicans, and the few tricky Populists who are pulling with them, will strain every sinew to defeat the Democratic ticket at the next election and the Constitutional Amendment. They realize the fact that if they don't the jig is up with them, and that henceforth they will be minus an avocation and a name and will have to pull out a living in some other way than pulling the wool over the eyes of the negroes and those white men who are simple-minded enough to let them do that.

The Greensboro *Record* which is published in the city where Chairman Holton and his first Lieutenant Abe (sable Abe) Middleton have their headquarters, thus tells how they are hustling:

"Revenue doodlers, rooters and tooters have abandoned their legitimate calling and business for which they were selected and paid, and are making speeches nightly and daily. Seldom are they seen in the larger towns, but confine themselves to the bushes—to the cross roads and little school houses.

"J. A. Logan, a deputy under Marshal Millikan, has been nominated for the Legislature from his county—Rutherford.

"And the darkey? He is not in it. The 'revenuers' are taking his place—in public at least—though as a matter of fact there never was a time when the negroes were better organized. This is demonstrated by their absence from all conventions and public gatherings. But this does not mean that they are taking no part. They are at work, but it is at night and among their own color. The organization is more compact than the old Red Strings, first instituted by Tourgee and his gang of thieves in Guilford soon after the war.

"The white man who thinks that the negro has been withdrawn from the political fight in North Carolina will wake up to find he has been hoodooed. The negro is in self-exile; he knows the programme and is willingly following it. Let the Republicans gain control of the State and the like of rascality will be as nothing compared to what will be seen.

"The Republican party in this county—and quite likely it is the same in most of the counties in the State—have adopted a species of guerilla warfare—they are working in secret and are making the most gigantic efforts to save themselves.

"A Democrat was heard to remark lately that all the literature they were sending out amounted to nothing, that the Republicans could not read, and but little harm was being done. Never was there a greater error. Literature is not being sent to Republicans, except to distribute to Democrats, and it is among this class the devilment is going on. From headquarters in this place are being sent out wagon loads of stuff every day. It goes right into the hands of men who are seeing that it is placed where it will do the most good. Not only this, but the party is supplied with more money than was ever before known in North Carolina. They have a good plea, and the national committee has assured them that they can have all that is needed; of this there can be no successful denial."

The *Record* on account of its proximity is in a pretty good position to see what is going on from the outside, but there never was a campaign of any importance in North Carolina when the Republican managers didn't do a good deal of the same kind of work—sub rosa, under cover work—that they are doing now, but they are doubtless doing more of is now than heretofore, because they feel it is a case of self-preseavation or die dog or eat the hatchet with them.

Eliminate the 70,000 or 80,000 ignorant negroes that will be knocked out by the adoption of the constitutional amendment and where would those mercenary, aspiring, unscrupulous office hunters be? It is a question of dollars and bread and meat with them, and hence they hustle. But they will be hustled out all the same, for they can't pull wool over the eyes of enough white men in North Carolina to play their game successfully.

THE QUESTION IN A NUTSHELL

A short while ago we quoted an extract from an address at Wake Forest commencement by a Professor from the University of Chicago, in which he referred to the race problem in the South and virtually endorsed the elimination of the ignorant negro from politics.

Dr. Lyman Abbott, of New York, delivered the baccalaurate address at Trinity College commencement. In referring to the race problem he said:

"But this I will say, that self-government which breeds corruption and anarchy, as did this carpet-bag government in the South, is not good government; and it is not made good government because it is founded on what men call universal suffrage; and if to day Americans in the North seem to be apathetic in the presence of violation of political rights in the South, it is because deep down in our minds we are convinced that what is wanted is good government as the end, not self-government except as a means to that end. No man has thrown more light on the race problem than one of the negro race himself, Booker T. Washington, and I think I might run what he has said in this once sentence: 'We believe in manhood suffrage, but manhood must come first and suffrage afterwards; not suffrage first and manhood last.' "

This presents the case in a nutshell and states precisely the position of the white people of the South. They want good government, government that will command the respect and obedience of the people, that will command the confidence of people of other sections so that they may feel safe in coming to live or to invest their money in this section, and they are adopting the only practical way, as they see it, of accomplishing this, that is by restricting the suffrage to those fit to exercise it. It isn't really a question of color at all, but of fitness. No intelligent negro is barred from the franchise, and every one will be admitted when he qualifies himself to meet the requirements of the law. It is a question of color only in so far as it embraces so many more negroes than whites, many of these negroes being so densely ignorant that they couldn't tell an election ticket from a weekly crop report. As Dr. Abbott remarked, the intelligent people of the North are beginning to understant this thing.

The identity of the wild man who for some time has been terrorizing the good people near Winstead, Connecticut, has been discovered. He went in bathing, and while he was disporting in the stream around a bend some policemen came along and seeing the clothes concluded some one had drowned himself and they took the clothes along. When the young man came out, his wardrobe was too scant to venture into town, and there was nothing to do but take to the woods. Persons who got a glimpse of him spread the report that he was a wild man, and houses were locked, and men stood guard over them, and thus it went until the wild man succeeded in hailing some one passing by, and sending word to his people for some clothes. When he goes in swimming in that stream again he will take a rope along and pull his clothes up a tree.

— Newbern *Journal*: The most destructive fire of the year occurred Saturday at 2 a. m. the entire plant of the Newbern Wooden Package Works being burned. The origin of the fire is unknown, it is thought to have started in some waste under the building being frame and its contents very inflammable, so that by the time the department got to the fire it was beyond control, and the building and contents were entirely consumed. From Mr. F. S. Hoag, one of the owners, it is learned that the building, machinery, stock up, and raw material was valued at 19,800 and the insurance on same was $6,500. Mr. Hoag says the plant will be rebuilt.

— Greenville *Reflector*: A brutal murder occurred near Vanceborol Thursday night when John Manning was shot and killed by his nephew Nile Manning in company with John Manning, Jr., the son of the murdered man. Mr. John Manning was visiting near Vanceboro, and John Manning, Jr., and Nile Manning, who had previously had some family troubles left Hanrahan's Thursday morning and after walking four miles below Vanceboro, where they met Mr. John Manning in the road and got in a fight. Nile Manning shot Mr. John Manning three times and then both walked back to their home leaving Mr. John Manning, as they supposed dead in the road. The defendants were arrested Friday by Mr. Jos. McLawhorn, the Constable at Ayden, and brought here this morning and put in jail for safe keeping until the sheriff of Craven county can come ant take them to Newbern. These are the facts as were learned, from the prisoners themselves. Nile Manning, who did the shooting, is a desperate character, having served one term in the Newbern jail. John Manning, Jr., son of the murdered man, claims to have had nothing to do with the killing but walked to Vanceboro with and allowed Nile Manning to kill his father without trying to prevent it. All of the parties live in Pitt county, but the murder was committed in Craven.

— The fight against the ice trust in New York is being waged by Democratic papers. The Republican papers are taking practically no part in it. When one considers how many schemes for the robbery of the people are shown up by the newspapers from time to time, it becomes certain that but for the championship of the people by an incorruptible press, the crimes that would be perpetrated upon them by greedy individuals, corporations and officials, would be appaling.—*Savannah News, Dem.*

COTTON MARKETS.

By Telegraph to the Morning Star.

NEW YORK, June 11.—In some respects to-day's market was peculiar, with trading dull and active by turns and sentiment variable. The forenoon in particular showed the talent as well as the speculative public to be more or less in the dark and unable to form positive opinions, due for the most part to uncertainty as to the outcome of the noon government crop report. The market opened steady with the first sale of July showing a decline of two points while the last sale of the call was an advance of three points; the other points were one to six points higher. This advance was quite in opposition to the influences at work, such as weak Liverpool cables and bearish reports on the crop and the weather conditions from the cotton belt. It was seen that Liverpool this morning had made but a feeble response to our emphatic rise last week, while the English markets were closed on account of holidays. The foreign contingent also showed a disposition to sell at the opening prices. Before the close of the first hour the market made a turn for the worse under a change in the character of speculation here and rumors that sentiment in New Orleans was strongly bearish. However, the crowd was disposed to act with extreme conservatism, pending knowledge as to the bureau statement. The latter came to hand soon after noon and was immediately seized upon as a bullish argument. Prices advanced four to five points on a light flurry of covering and investment buying for the account of courageous bulls. The statement showed an increase in acreage of 8.7 per cent., equal to 2,036,000 acres, making the total acreage 25,558,000 acres. The crop condition showed a decrease of 3.2 per cent. to 82.5 with Texas reported at 71. Nevertheless the report failed to stimulate bull enthusiasm, and by 12.30 shorts had regained confidence and were hammering the entire list in a jubilant manner. Prices began to crumble and soon broke perpendicularly under a spurt of active general selling, in which New Orleans was a prominent leader. The weakness did not terminate until late in the day, when a scramble of profits created some steadiness and rallied prices several points. During the rest of the session, the market was feverish and rather disposed to weakness. The close was barely steady with prices six to fifteen points lower.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY FOR THE BLOOD, LIVER, LUNGS.

SOME AWFUL DEATHS.

FEARFUL FORMS IN WHICH THE GRIM DESTROYER CALLS.

The Venom of a South Australian Spider and the Frightful Agony It Causes—A Grain That Makes Its Victim a Raving Maniac.

What is the most awful shape in which death may come to mortal man? Not by fire, nor by water, nor by gunshot. These are mere pleasures to some of the deaths by which you may die.

The most agonizing of all is caused by an insect half the size of a pea—a small black spider. It lives in Peru and South Australia, but a few specimens have reached Europe and America in shiploads of timber. Not long ago a dock laborer was unlucky enough to come upon one in the Victoria docks while unloading a bark. The tiny death dealer dropped upon the back of his hand and dug its fangs into his flesh. The bite itself was nothing, but as soon as the poison began to work the man fainted with pain. Soon afterward he came to and lived three days before the end came.

This spider's venom scorches up the blood vessels and spreads through all the tissues, causing the most fearful agony a human being can have to bear. The worst of it is that the victim lives at least two days, enduring unthinkable anguish the whole time. This spider is luckily not common. It is known as the "specky," and when a man who knows what the bite means is bitten he generally blows out his brains.

Another fearful death is caused by eating a grain called "bhat." This sometimes gets mixed with rice, which it resembles. The plant grows in the east, and a few grains of it will drive one into a state of violent mania. The victim becomes drowsy at first and afterward hilarious, then he goes stark, staring mad and tears himself literally to pieces with his fingers, biting mouthfuls out of his limbs. It is bad enough to see such a case, but as for experiencing it—

This grain is only found in remote parts of the east, but both white men and natives are killed by it occasionally in the east, for the plant grows in with the rice crops and can scarcely be told apart, but that the dried grain is of a reddish color.

Of course falling into a vat of boiling metal, as unfortunate workmen sometimes do, sounds bad enough, but it is mercifully quick. There is a South American vine called the "knotter," which is far worse. It twines around any living thing that comes within reach, twisting its long tentacles about a man as a devilfish might. These tentacles sear and burn into the flesh like white hot wires, and the victim is dragged into the heart of the foliage and his juices slowly drained, as a spider sucks the blood of a fly.

All say that the pain is worse than they could have believed it possible for a man to feel. The "knotter" is well known to scientists and is, in fact, a sort of huge flytrap plant. Those who have strong instincts of cruelty, coupled with curiosity, sometimes force a dog into the grip of the "knotter" to watch the effects, which are too horrible to describe in detail.

Again, there is nothing very much worse than hydrophobia, when genuine. The patient often lives for days in the acute stage and in his last hours is simply tied up in knots and bent backward and forward like a bow. It is a very rare disease with human beings, for most people bitten by rabid dogs, a small number at most, escape it. In extreme cases the patient actually snarls and bays like any hound, and, next to experiencing it, the worst thing is to watch a case. It is as distressing a spectacle as any man could witness.

There is a snake called the "lancer," which lives in South America, and is very ready with its fangs. It is a small, brown, insignificant beast, but its bite induces a sort of imaginary swelling all over the victim's body. He feels as if every inch of him were being strained to breaking point, and the agony which results is too awful for words. Generally, however, the excess of pain drives the bitten man mad before very long, and in four hours he dies—a senseless imbecile.

But, all said and done, perhaps there is no death much worse than by the common disease of cancer, which gnaws at the patient's vitals through month after month of unceasing agony and slays its victim at last through sheer exhaustion.—London Spectator.

His Little Contribution.

One of the many stories told of the late Dr. Wallace, M. P., is to the effect that when the editor of a local paper in the north asked him "if he would kindly furnish an article on 'a light theological topic'" Wallace responded with one bearing the title "The Relations Between the Presbyterian Church and Modern Thought." When set up the article made 40 columns, and it became a puzzle to editor and printer how to get rid of it. They began by using it in pieces, and whenever the printer said to the editor, "We've got no leader," the reply was, "Eh, mon, just sneck off about a column and a quarter o' Wallace." In this way the contribution was used, first working down from the beginning, then upward from the end.—London Academy.

Touched.

"I suppose you were touched when your wife gave you that $50 easy chair?"

"Of course! How else do you imagine my wife could come by $50?"—Detroit Journal.

In Belgium at 6 o'clock, evening, you hear from every cottage the voices of father, mother and children and servants saying their prayers, and it is much the same at noon.

Animal Partnerships.

Of late years naturalists have become acquainted with numerous examples of animal partnerships. In one of the Chicken islands, off the New Zealand coast, a curious lizard known as the tuatara and certain species of petrels were found inhabiting the same burrows, apparently on the best of terms. As a rule the lizard is the excavator.

The lizard feeds partly on worms and partly on the remnants of fishes brought to the common table by the petrels, both animals being thus benefited by the partnership.

A feeble fish called the remora owes its success in life to the powerful alliances it forms. One of its fins has been transformed into a sucker placed right on the top of its head, by means of which it attaches itself firmly to any passing shark, whale or even a ship. By these it is transported without any exertion on its own part over great distances. Several small fishes have been found also to habitually lodge in the mouth cavity of a Brazilian catfish, sharing such food as the latter succeeds in capturing.—Cincinnati Enquirer.

That Matter of Attention.

"When a man pays attention to a woman," says the Manayunk Philosopher, "it's generally a sign that he wishes to marry her, and when he doesn't pay attention to her it's often a sign that he has married her."—Philadelphia Record.

WILMINGTON, N. C.

TUESDAY MORNING, JUNE 12, 1900.

SPECIAL ADJOURNED SESSION.

Legislature Meets To-day in Raleigh—Business to Be Transacted—Vance Monument Unveiling.

[*Special Star Telegram.*]

RALEIGH, N. C., June 11.—The Legislature will meet to-morrow at noon in special adjourned session. Already about four-fifths of the members are here. The principal business attended to will be amending the election law and making some alterations in the constitutional amendment. The Election Law Committee will hold its last meeting at 10 o'clock to-morrow morning, and have a bill ready to be acted upon when the Legislature meets at noon. Several changes of importance will be made in it and a large number of minor changes, principally supplying omissions or making plain uncertain sections. The amendment is not yet ready to be reported to the Legislature for action, and probably will not be before Wednesday. It has been proposed by some to extend from 1908 to 1915 the time fixed for the educational qualification to go into effect. This, it is urged, will insure to every white child in the State ample opportunity to learn to read and write before the law goes into operation. There is considerable opposition to this in some quarters.

In caucus to night it was decided to refer all bills except the election law and the amendment bill to a committee, who shall say whether or not these ought to be introduced at this session. This committee is composed of Senators Justice and Travis and Representatives Allen, Overman and Moore.

The committee having the matter in charge to-day decided to have the Vance monument unveiling on August 22nd. Mr. R. P. Battle who was for several years Gov. Vance's private secretary, will be the orator.

On Wednesday there will be further testimony taken here before Special Master Eugene Martin in the Carolina Central railroad's fertilizer rule case.

THE AMENDMENT IN ROBESON.

Being Industriously Opposed But County Will Give It Good Majority.

[*Special Star Correspondence.*]

MAXTON, N. C., June 11.—Iredell Meares, Esq., of Wilmington, spoke in Maxton Saturday night. Mr. Meares is a forcible speaker, and he discussed the Constitutional Amendment, clearly showing the necessity for its adoption and painting a glowing picture of the results which will follow.

The opponents of the Amendment have industriously circulated their literature. There is probably not an illiterate white man or Croatan in the county but has been approached and the impression endeavored to be made on his mind that he is to be disfranchised. However, Robeson will be held and the State saved.

The cry of fire brought out a crowd about nine o'clock last night. It was found that a would be incendiary had saturated a lot of old rags with kerosene oil and set them on fire in an upper room of a house on Henderson alley occupied by the family of the late Rev. O. Letterlough, colored. The older members of the family were at church and only the small children were at home and were down stairs when the fire was discovered. The fire was put out before damage resulted.

SOUTHERN BAPTISTS.

Conference of Secretaries of Mission Boards to Be Held in Atlanta.

By Telegraph to the Morning Star.

ATLANTA, GA., June 11.—The State secretaries of the Baptist State Mission boards throughout the Southern States will be here to-morrow for the annual conference with the Home Mission Board of the Southern Baptist convention. Rev. W. W. Landrum, D. D., president of the Home Mission Board, will preside.

The most interesting subject to be discussed will be the new century movement. This contemplates a more effective organization of more than 18,000 Baptist churches, with the view of increasing their contributions to missions and education at home and abroad. It is proposed that the committee on co-operation of the Southern Baptist convention control all the Constitutions of Southern Baptists without regard to State lines.

The State secretaries of the Home Mission boards of North and South Carolina, Virginia and other States are expected to be present.

There was talk in New York banking circles yesterday of several gold exports on the French steamer leaving on Thursday next.

The officers of the Wrightsville Branch Exchange are: John Bragg, Manager; Ed Burkheimer, Chief Inspector; Miss Mary West, Day Operator, and Mr. Gordon Grant, Night Operator.

BOXERS THREATEN THE CITY OF PEKIN

Dowager Empress Said to Have Taken Refuge at the Russian Embassy.

THE INTERNATIONAL FORCES.

British Troops at Tien Tsin Seize the Railroad—Forcing Their Way Through. The Situation Growing Steadily More Alarming.

By Cable to the Morning Star.

BERLIN, June 11.—The German Foreign Office has received a dispatch from Pekin, dated Sunday afternoon, saying the American mission house at Tung Chow, the river port of Pekin, has been burned by the natives. The officials of the Foreign Office suppose this happened Saturday or Sunday night.

The dispatch further says the International Club, outside of a gate of Pekin, has been burned and that the Belgian secretary of legation was attacked by Chinese soldiers. The Foreign Office interprets the latter news as confirming the serious view it has taken of the situation and express fear that the German embassy will be next attacked.

An official of the German Foreign Office called attention to a remark ascribed to Colonel John Hay, the United States Secretary of State, to the effect that the United States could not enter into an alliance with the powers regarding China, and added:

A Police Question.

"There is no question of an alliance, which is necessary; but only of a political combination for a specific purpose. This is not a political question, but a police question. The case involves the interest of no single nation; but of all, in common."

It was further added at the foreign office that there are now 650 foreign soldiers in Tien Tsin. Of the 1500 now on the way to Pekin 150 are German. They will repair the railroad as needed, probably reaching Pekin to-day. One of the two telegraph wires to Pekin which was destroyed has been restored.

The German gunboat Tiger has been ordered to sail for China immediately.

The German government of Tsing Tow has been ordered to co operate in quelling the disturbances.

Troops En Route to Pekin.

TIEN TSIN, June 11.—Telegraphic communication between here and Pekin was interrupted this morning. A special train left at 5 o'clock with British troops to guard Tong Shan. It is considered that the number will be inadequate. If trouble arises in Tong Shan, all the Northern China railways will be at a standstill.

Owing to difficulty in securing the viceroy's permission for a third special train to start for Pekin, the foreign troops occupied the cars, whereupon the Chinese engine driver ran away with his locomotive. The crowd tried to pull up the track but the troops cleared the rabble away at the point of the bayonet and seized the engine.

On learning of this the viceroy granted permission and the train left at 5:15 P. M. with about 500 men. The force was made up of 350 Germans, 80 British and the rest French troops.

TIEN TSIN, June 11.—The captain in charge of the British defences here commandered a third special train yesterday and a fourth to-day for the transport of 213 Russians and two guns and 62 French marines with stores, and one gun for the British. The international forces are near Lang Fong, forty miles from Pekin, but it is doubtful if they reach the capital before Tuesday.

Situation More Alarming.

LONDON, June 11.—A special dispatch to the Associated Press from Pekin, under date of June 9th, says:

"The situation is growing steadily more alarming. The missionary compounds were all abandoned yesterday evening. Forty American and English missionaries are gathered at the American Methodist mission, surrounded by 300 native pupils, whom it was impossible to send to their homes. They are waiting with a few revolvers and guarded by ten American marines, for reinforcements to take them to the coast.

"A missionary who has returned from the country to the east says the populace are asserting that they must have a new emperor."

Intense Hostility to Foreigners.

LONDON, June 11.—A special dispatch from Shanghai, dated to day, says:

"All the naval forces except the Russians are acting under the orders of the British admiral.

"It is reported that the head of a foreigner has been seen exposed on a pole northwest of Tien Tsin. The Chinese are fleeing from Pekin and Tien Tsin to Shanghai.

"There are ominous indications of outbreaks in the Yang Tse district. All classes of natives in the north display intense hostility toward foreigners; and the Chinese soldiers point their guns at foreigners as they pass by.

Anglo-Americans Carry Their Point.

TIEN TSIN, June 10.—It is learned that but for the U. S. Consul and Captain McCalla of the Newark, in charge of the American landing party and the British consul there would have been further delay in dispatching the international guards to Pekin and the majority of the forces would not have been British. At a meeting of the consuls and commanders of troops last evening when the necessity for the immediate dispatch of troops was considered, the representatives of two European powers questioned the necessity and afterwards disparaged the idea that the British force should preponderate. The Anglo-Americans, however, insisted and carried their point. The Americans generally deplore the smallness of the United States force here. At the same time they are ready to defer to whatever may be considered best at Washington.

The Dowager Empress.

LONDON, June 11.—A special dispatch from Tien Tsin says it is reported that the Dowager Empress has fled to the Russian legation at Pekin.

THE COTTON CROP AND ITS CONDITION.

Increase in Acreage of Over Eight Per Cent.—Average Condition the Lowest in Many Years.

By Telegraph to the Morning Star.

WASHINGTON, June 11.—The statistician of the Department of Agriculture estimates the total area planted in cotton at 25,558,000 acres, an increase of 2,036,000 acres, or 8.7 per cent. over the productive area of last year. He estimates the increase at 7 per cent. in South Carolina and Alabama, 8 per cent. in Texas and Georgia, 9 per cent. in Louisiana and Tennessee, 10 per cent. in North Carolina, Mississippi and Arkansas, 15 per cent. in Indian Territory, 18 per cent. in Oklahoma, 25 per cent. in Virginia, and 27 per cent. in Missouri. In all these States the increase is more or less localized, being least where the production of cotton is the most dense, and greatest in those regions where cotton growing has hitherto been less extensively engaged in and where physical conditions are not in all respects the most favorable to its production. In general, the increase has been restricted by the scarcity of labor, the high price of seed, the enlarged area in fall-sown crops and, in certain sections, by exceptionally unfavorable weather conditions. Along the northern part of the cotton belt land from which wheat had been harvested is being hurriedly planted in cotton, but the amount is relatively inconsiderable and allowance has been made for it in the estimate.

The average condition of the growing crop on June 1st was 82.5 as compared with 85.7 on June 1 of last year, 89.0 at the corresponding date in 1898 and 87.1 the mean of the June averages of the last ten years. A condition of 82.5 is, with one exception, the lowest June condition in twenty years. The condition in Texas is 71, this being the lowest June condition reported from that State in twenty-five years, and 16 points below the ten year average. South Carolina, Alabama and Tennessee are two points and Mississippi and Florida three points and one point respectively below their ten year average. On the other hand Louisiana reports one point, North Carolina two points and Georgia and Arkansas three points above their ten year averages.

A greatly increased use of fertilizers is reported from the old States and wherever the necessary labor is available and planters are not too much discouraged unusual care is being exercised in cultivation.

Every important section of the nine principal cotton States, together with Oklahoma and Indian Territory, has been visited by special agents of the department within the last three weeks and the results of their investigations are embodied in the present report. This work will be continued throughout the entire growing season and should any modification of the acreage figures be found necessary the requisite adjustments will be made by the statistician and promptly made public.

OPPOSES DOWAGER EMPRESS.

Deposed Emperor Appeals to the Foreign Powers to Establish a Joint Protectorate and Reinstate Him.

By Cable to the Morning Star.

LONDON, June 12.—The Shanghai correspondent of the *Daily Express*, telegraphing yesterday, says:

"Weng Tung Ho, Emperor Kwang Hsu's tutor and confident, who was dismissed by the Dowager Empress after the coup d'etat in 1898, sends with the special sanction of the Emperor of his party, including three viceroys, a message to the people of the West. In part as follows:

"'His majesty is convinced, through amply trustworthy sources, that the loyal support of many scores of millions of the Chinese will be accorded to his proposals for putting an end to the state of anarchy, brought about by the action of the Empress Tsi Tsi.

"'The government of China being virtually non-existent, the Emperor proposes that the foreign powers whose troops dominate the capital shall remove his imperial person from the palace in which his majesty is confined a prisoner, shall declare Empress Tsi Tsi and her present ministers to be usurpers, and shall bring Emperor Kwang Hsu to Naking, Wu, Chang or Shanghai, which ever the said foreign powers deem to be the best situation for the new capital of the Chinese ministry, under the new conditions.

"'It is proposed by his majesty and his advisors that the foreign powers should declare a joint protectorate and undertake the task of governing the country through his majesty.'"

"The message suggests that the protectorate should abolish certain boards in Pekin; appoint new ministers; abolish the existing so called armies, establish gendarmie under foreign officers; take control of the customs, posts and telegraphs and work them through Chinese officials; establish a uniform currency; re-adjust taxation and insure freedom of religion.

"Weng Tung Ho, who predicts a peaceful acceptance of such a regime, goes on to say:

"'China is ripe for the change of tide which the reactionaries vainly seek to stem. If it should be on the other hand that foreign powers seriously contemplate the dismemberment of the Chinese empire, they have before them the huge task of facing dense millions, who although lacking training and who make but contemptible soldiers, possess boundless powers of passive resistance and would be able to wear out the patience of any European rulers seeking to govern them without regard to their prejudice.'"

THE GOLD DEMOCRATS.

Question of a Third Ticket to Be Held in Abeyance Until the Conventions of Other Parties Meet.

By Telegraph to the Morning Star.

NEW YORK, June 11.—George Foster Peabody, chairman of the National Committee of the Gold Democrats, to-day made the following statement with reference to the meeting of the committee in Indianapolis July 25th:

"The question of a third ticket must stand in abeyance until after the two conventions have been held and the platforms of the Republican and Democratic parties definitely announced. For this reason the meeting of the national committee, which Secretary John P. Frenzel, of Indiana, has been authorized to call was set for July 25th. Whether a third candidate will be run depends upon whether the constituencies represented by the various delegates regard it as expedient or not. If the committee decides to call the convention, the party platform will be the same as that represented by Palmer and Buckner four years ago, except that the imperialistic issue will play an important part.

The Train Dispatchers' Association of America will meet in annual session in Atlanta to-day. Many important questions relating to train rules and the movement of trains will come up for discussion.

RENEWED ACTIVITY OF BOER FORCES.

British Defeated With Considerable Loss in Southern Part of the Free State.

IN THE REAR OF ROBERTS.

British Communications Severed—Railroad Tracks Destroyed—Machadodorp Proclaimed Capital of the Transvaal—Other News.

By Cable to the Morning Star.

LONDON, June 12, 3.30 A. M.—Fifty thousand British troops are within half a hundred miles of the marauding Boers north of Kroonstad and they are expected, of course, to make short work of them. Nevertheless, outside of the slender War Office telegrams, no one knows what is going on.

South of Kroonstad there is a wide gap. The railway is only partially defended, and, as General Kelley-Kenny has hurried all the available troops northward, the assumption is that there is danger of a second raid.

The loss of the Derbyshires is estimated at from 600 to 700 men.

Machadodorp has been officially proclaimed the capital of the Transvaal.

An official Boer telegram asserts that the British have been defeated with considerable loss at Donkerspoort in the Southern extremity of the Free State, or Orange river colony, ten miles from Norvalsport. It was thought that this district had been cleared of Boers and rebels long ago.

The Boers still cling to Laings Nek; but General Buller's forces are still working far around in that direction.

Roberts' Communications Cut.

CAPE TOWN, June 10.—Kelly-Kenny reports from Bloemfontein this morning that Methuen, with the greater part of his division, was fighting early in the morning of June 8th, ten miles south of Heilbron, where Colville was reported to be with the Highland brigade. Methuen left Lindley June 5th, with a sufficient force and supplies. Kelly-Kenny has ordered Knox to press in the enemy's outpost, believing the enemy's strength to be exaggerated. All is quiet and there is no anxiety as regards the district to the South. Communications north of Kroonstad have been cut since June 6th.

The news that the shutting off of Lord Roberts' communication with the outer world was accompanied by such serious loss came like a bolt from a comparatively clear sky. In London, until the news came, it was thought that the destruction of the railroad was accomplished by Free Staters, who were avoiding rather than annihilating the British detachments stationed at the point attacked.

Nor are General Forestier Walker's vague statements regarding Methuen and the situation at Heilbron looked upon as reassuring. The Boers appear to be in sufficient strength to completely separate all the British forces north and south of a line stretching some fifty miles between Roodeval and Heilbron. Methuen's march upon the latter place seems somewhat in the nature of a movement for the relief of Colville. The only British officer left at Roodeval appears to be the doctor in charge of the hospital, which is full of wounded.

BRYAN AND DEWEY.

Ohio State Democratic Convention May Take the Initial in Endorsing the Admiral for Vice President.

By Telegraph to the Morning Star.

COLUMBUS, O., June 11.—The Democratic State Convention which begins here to-morrow follows the reception of Admiral Dewey of last week. It was at one time proposed to have Admiral Dewey here during the convention, or, rather, to hold the convention last week while he was here, but some of the subscribers to the Dewey celebration fund objected and the plan was abandoned. There is much talk about Bryan and Dewey being nominated at Kansas City on the same ticket. During this agitation for Bryan and Dewey as the coming men for the National ticket, there is one man wanted here above all others at this time and that man is John R. McLean, the last Democratic candidate for Governor and the acknowledged leader of the Ohio Democracy. But all telegraphic calls for McLean fail to get a favorable response. He has announced that he must sail for Europe with his family next Saturday morning from New York and that he cannot attend the convention in Columbus this week. He says, furthermore, that he cannot return in time to attend the National convention in Kansas City three weeks hence. He would be placed at the head of the Ohio delegation to Kansas City if he would give a single word of consent, but he declines absolutely.

As he is a brother-in-law of Admiral Dewey, his friends say that he does not want to appear in the role of family preferences, but they insist that if Admiral Dewey is put on the ticket with Bryan without his personal efforts, that he will return from Europe at once and devote himself exclusively in the campaign in behalf of Bryan and Dewey.

All who are agitating Bryan and Dewey as the ticket think there is no doubt about the Admiral accepting. There is a diversity of opinion as to whether this convention should take the initial step in endorsing Dewey as well as Bryan for the national ticket.

RICHMOND, VA., June 11.—At Lawrenceville to-day, the jury in the case of Rev. J. E. R. Riddick, who killed Dr. W. H. While this verdict was in the nature of a compromise, it has not been determined whether the defence will accept it. The public is greatly dissatisfied with it.
